5. Airport Manager Report:

Airport Manager Johnson gave some highlights of his written report. Paving is done, has a few flaws, painting of runway is complete, painters stated that they could do in 3 days and it actually took them six days to complete as they had equipment breaking down and when they were checked on for progress, they were on the phone or doing whatever and not working.

Grass cutting and weed control, a lot getting done. The clutch is going out on the tractor that pulls the mower. Will need to get it into the shop for repairs.

Rotating beacon-motor is in route from Wisconsin and was supposed to be here by October 9th. Has not arrived as of today. Would like to have the motor that is not allowing the beacon to rotate rebuilt and keep for a spare, so that we do not have to wait for six weeks for a new one to arrive.

Meeting adjourned at 3:15 pm

Becky Hill, Recording Secretary

Jerry Sorrell, Chairman
